Green Screen Technology Across the Curriculum
Professional Learning Workshop

VIDEO MAKING IN A FUTURE FOCUSED CLASSROOM

Workshop benefits:

- Applies technology in the classroom creatively, in a way that engages students with content
- Develops literacy and improves learning outcomes
- Demystifies the process for any teacher interested in bringing multi-modal learning to their practice

This is an interactive, hands-on program. Teachers will collaborate through a number of video-making tasks, both in front and behind the camera. From writing, rehearsing to crewing, editing, watching and reviewing, in our mini-movie festival at the end of the workshop.

Understanding how to integrate video across all areas of the curriculum to enhance your teaching, while taking away practical tools for the classroom, is the aim of this program. For those already applying technological strategies in the classroom, this course will enhance and develop your skills to the next level.

WHO IS THIS WORKSHOP DESIGNED FOR:

- Teachers from Preschool to Year 12 who are interested in promoting modern learning principles for the future focused curriculum.
- Teachers wanting to be at the forefront of current technologies in their school.
- Teachers who wish to up-skill on current technologies due to the Digital Technology curriculum and ICT Capabilities becoming mandatory in 2017.

WHEN: Thur 16th Mar
TIME: 9am - 3pm
COST: $295 + gst
WHERE: Sackville Street Public
22 Sackville St, Ingleburn
