The good learner project
Course Code: NR10953
Ultimo Operational Directorate Term 1 2017

Overview
How can we develop lifelong learners? This 14 hour course gives participants the opportunity to consider what a good learner looks like and the culture and strategies that encourage and develop them. We look at how to engender a love of learning, exploring metacognitive pedagogies to promote visible thinking, growth mindset, questioning and inquiry learning. Participants plan and then initiate strategies in their school to develop a culture of good learners. Support is provided, as required, by the course facilitators. This course incorporates 2 consecutive days face to face and an at school component.

Anticipated Outcomes

<table>
<thead>
<tr>
<th>Priority Area/s</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quality Teaching Leadership</td>
</tr>
</tbody>
</table>

Participants will
- gain a deeper understanding of what makes a good learner
- develop a clearer understanding of strategies that create good learners
- develop a plan of action
- begin the implementation of the plan of action

Target Audience: School leaders.
As this course involves collaborative planning for the leadership of implementation it is recommended that at least 2 members of staff attend.

“…learning to learn is an apprenticeship in which we don’t so much learn from others as we learn with others in the midst of authentic activities.” Ron Ritchhart 2015

Completing this course will contribute to 14 hours of teacher identified learning at Proficient against the following Australian Professional Standards for Teachers
1.2.3, 2.1.3 & 3.2.3
